The result of our consultation on the new uniform showed an even split between the two styles of blazer. The additional comments showed that the majority of concerns were about the cost of the new uniform. These comments were discussed at great length by the Board of Governors, who all felt that a new uniform makes an important statement about the new Academy. They were mindful of the cost implications, especially for families with a number of children at the school and decided to provide all current students with the new standard uniform. We hope that this will ease your concerns about the change to the new uniform.

We are confident that the new uniform will have a positive impact on the way the students present themselves and the way they feel about their new Academy. We would like to thank you all for your support in helping us to make this change.

Yours sincerely

Jed Whelan
Headteacher
